E. C. WALTON.

SENATOR BLACKBURN continues to leta phantasmagoria in the shape of a machine haunt his daily thoughts and nightly dreams. He has sworn the horse is 17 feet high and hopes by an iteration and reiteration to get some one besides himself to believe that Gov. Beckham is conspiring against the great common people and sending the party to the demnition bow wows by manipulating a machine for the officeholders' trust, which unfortunately does groes the coming season. not include the Senator. Anybody can make charges and as Senator Joe is possessed of a voice like a fog horn, he can vociferate with unusual strenuosity, but when the people demand specificacan not "specificate" and his charges sar Young, is composed of 10 married moters were planning a fistic battle in will fall as flat as a flounder. Besides the Senator is a bit inconsistent. He says he is a democrat of such serene purity that he would rather see it saved from the machine than to be re-elected, and in the next breath says that if the machine puts up Auditor Hager for governor, he will take pleasure in announcing the candidacy of John W. Yerkes, whose election he guarantees in the shape of a land slide. As Judge Hager is a democrat of the strictest sect, and a gentleman of ability and high claims for party honors, this assertion rather gives the black eye to the Senator's claim to party loyalty. Meantime, Judge Paynter goes on attending to his business and making friends, by keeping in a good humor, a virtue the erstwhile even tempered Senator should endeavor to cultivate. The common scold usually gets the hot end of it.

Clay King, with any kind of stud opportunites,

roc.

Clay King, with any kind of stud opportunities, would today be in the first fight of successful sires of extreme speed. His stud career is practically just begun, and there is not a horseman in the Blue Grass State who does not regard him as a wonderful sire of early and extreme speed. Every man at the Lexing-ton track has seen his get accomplish what has neverbeen done by the produce of any other horse; they have seen his yearling step quarters in 35 1-4 seconds and then sell for startling prices; they have seen his older representatives show as much speed, gameness and genuine race horse qualities as those of any sire ever quartered in Kentucky.

Clay King will make the season of 1905 at the low price of \$12.50 to insure a living coit. A lien retained upon the foal to secure the payment of the season. All care will be taken to prevent accidents to stock intrusted to our care, but should any occur we will not be responsible for the same. W. B. BURTON,

FOR SALE! MCKINNEY ROLLER MILLS.

I offer for sale my mill and residence in McKinney. Ky. Mill has flour capacity of 50 barrels and meal 160 bushels per day. Mill is well equipped with modern machinery in good repair. Has storage capacity of 5,000 bushels of wheat; also large corn bins and cribs. Wagon scales operated from office, coal bins and ice house. All under roof. Never falling water in mill lot. Mill is within 100 feet of Cincinnati Southern R. R. track and has private siding. The location is good for the following reasons: Mc-Kinney is nearest market to many of the largest wheat and corn growers in Lincoln county, large territory furnishing custom grinding. The feed and coal business in connection with mill pays well. No trouble to market all products from mill. Residence is a two-story, six room frame, with cistern on back porch. Milk house at back door cemented; all comparatively new. Large barn, buggy house in mill lot. On account of my failing everying and health. Large barn, buggy house in mill lot. On account of my failing eyesight and health generally, my physicians have advised me to quit the milling business. For further particulars call on or address Dr. Edw. Alcorn. Hustonville, Ky., or W. MASTIC MIXED PAIN

Can't | Be Touched for painting houses. The reason's plain. Mastic

is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they can't. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil-the most durable kind of paint-and its purity is therefore unquestioned.

As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by
